

DocEng2010

Manchester, UK, 21-24 September 2010

10th ACM Symposium on Document Engineering

<http://www.primaresearch.org/doceng2010>

Call for Papers

The ACM Symposium on Document Engineering (DocEng) provides an annual international forum for presentations and discussions on principles, tools and processes that improve our ability to create, manage and maintain documents. DocEng is sponsored by ACM by means of the ACM SIGWEB Special Interest Group. Proceedings are available through the ACM Digital Library.

Topics & Technologies

- Document representations – standards (ODF, PDF), models, type representation, metadata (MPEG-7, RDF), style sheets (CSS, XSL), markup languages (SGML, XML), multimedia (MPEG-4, SMIL, MHEG, NCL), multilingual representations, temporal aspects
- Document manipulation – document transformation (XSLT, XQuery), adaptive documents, document presentation (typography, formatting, layout)
- Document systems - workflow, cooperation, web services, social networking, engineering life cycle
- Document system components - security, APIs (SAX, DOM), synchronization, system performance
- Document collections - databases: storage, indexing, retrieval, content management systems, e-books
- Document linking - techniques (e.g. XLink, Xpointer), blogs, wikis, integration with other digital artefacts
- Document generation - authoring tools and systems, variable data printing, automatically generated documents
- Document analysis - structure, layout and content analysis, categorization, classification, character recognition

Important Dates

Full papers & working sessions

Abstracts due April 2, 2010
Papers due April 16, 2010
Acceptance notice by May 14, 2010

Short papers, posters & demos

Abstracts due May 21, 2010
Papers due May 28, 2010
Acceptance notice by June 18, 2010

All papers

Revised versions due July 2, 2010

Symposium Format

DocEng 2010 is a single track conference attended by academic and industrial researchers who are all well acquainted by the end of the conference. Authors and working session members and facilitators are expected to register for the symposium.

Submission Types

Authors are invited to submit original work in the form of:

- **Full Papers** describing complete works of research (up to 10 pages).
- **Short Papers / Posters** reporting on research in progress or novel positions on document engineering (up to 4 pages). Short papers may be assigned to oral or poster presentation.
- **Demonstrations.** A two-page summary of the system to be demonstrated must be submitted for review. Summaries of accepted demonstrations will be published in the conference proceedings.
- **Working Sessions / Workshops.** Potential organizers are invited to submit proposals for a working session or workshop.

All submissions will undergo a rigorous review process considering the *originality* of work, the *quality* of research or analysis of experience, the *relevance* to document engineering, and quality of *presentation* of ideas.

Venue

DocEng2010 will be held in Manchester, in the United Kingdom. The Greater Manchester metropolitan area is the second largest economic region in England offering a wide variety of opportunities to explore the region's history and vibrant cultural scene. Excellent transportation links make Manchester easy to reach and an ideal base for excursions to the Lake District, the Peak District, Chester, York, Liverpool and North Wales. London is a two-hour train ride away.

The symposium will take place at the Chancellors Hotel set in five acres of gardens within very easy reach of Manchester city centre by public transport (3 miles) and the airport – MAN (5 miles). On-site accommodation is available for participants.

Support for Students

Students presenting their work at DocEng2010 will be eligible to apply for SIGWEB Student Travel Awards. Application forms and instructions are available on the website.

Committees

General Chair

Apostolos Antonacopoulos, UK

Program Chairs

Michael Gormish, USA
Rolf Ingold, Switzerland

Local Arrangements Chair

Stefan Pletschacher, UK

Technical Organisation

Christos Papadopoulos, UK

Program Committee

Steven Bagley, UK
Helen Balinsky, UK
Uwe Borghoff, Germany
David Brailsford, UK
Dick Bulterman, The Netherlands
Pablo Cesar, Netherlands
Boris Chidlovskii, France
Michael Collard, USA
Cyril Concolato, France
Gersende Georg, France
Luiz Fernando Gomes Soars, Brazil
Matthew Hardy, USA
Roger Hersch, Switzerland
Nathan Hurst, Australia
Andruid Kerne, USA
Peter King, Canada
Darko Kirovski, USA
Alberto Laender, Brazil
Baoli Li, Ireland
John Lumley, UK
Simone Marinai, Italy
Kim Marriott, Australia
Mirella Moro, Brazil
Ethan Munson, USA
Charles Nicholas, USA
Moira Norrie, Switzerland
Maria da Graca Pimentel, Brazil
Stefan Pletschacher, UK
Ashok Papat, USA
Steve Proberts, UK
Vincent Quint, France
Cécile Roisin, France
Sebastian Rönnau, Germany
Patrick Schmitz, USA
Steven Simske, USA
Margaret Sturgill, USA
Frank Tompa, Canada
Jean-Yves Vion-Dury, France
Raymond Wong, Australia
